

# Avène Thermal Spring Water

The KEY ELEMENT in ALL Avène skincare products and regimens.

A 40-year journey in the Cevennes Mountain allows the water in Avène to acquire its perfectly balanced mineral composition and gradually become enriched with the trace elements and silicates.

Over 300 clinical studies have been conducted to prove its efficacy!

- ❖ Rich in silicate and trace elements soothe, calm and soften.
- ❖ Protects and purifies skin.
- ❖ *Perfect therapeutic product following skin care treatments, such as microdermabrasions and chemical peels.*
- ❖ Low salt mineral content (NaCl, 266 mg/L) adapted to sensitive skin will not cause skin to dry out.
- ❖ pH of 7.5 will not sting or burn skin. Thermal Spring Water can be sprayed on open, clean wounds.
- ❖ Naturally bacteriologically pure.
- ❖ Constant temperature of 75°F, 25.6°C.
- ❖ Penetrates other facial products by driving them deeper, enhancing their efficacy.

AVÈNE'S THERMAL SPRING WATER IS THE ONLY SPRING WATER DIRECTLY CONNECTED FROM THE SOURCE TO THE HYDROTHERAPY CENTER AND THE MANUFACTURING PLANT NEXT TO THE CENTER. THE FIRST TIME IT SEES THE LIGHT IS WHEN IT TOUCHES YOUR SKIN!
