Intellishade® SPF 45

INGREDIENTS	BENEFITS
Vitamin C (THD Ascorbate)	• Most stable form of Vitamin C available. • Antioxidant shown to stimulate collagen synthesis and provide photo-protection. • Inhibits formation of hyperpigmentation.
Tripeptide	• Activates the skin's own growth factors for increased collagen production. • Reduces the appearance of fine lines and wrinkles. • Increases density of the dermal matrix.
Proprietary Blend of ACS-456 with Antioxidants and Brighteners	• Prevents UV stress and damage. • Increases collagen synthesis and strengthens the skin's own natural defenses. • Provides an Immune Protection Factor to help the skin support its own defense mechanisms. • Inhibits the production of melanin to help brighten skin.
Green Tea Extract	• Provides strong antioxidant protection from environmental stressors and anti-inflammatory benefits.
Octinoxate, Octisalate	• Provides UVB protection.
Zinc Oxide, Titanium Dioxide	• Physical sunscreen for UVA/UVB protection.

Outsmart the signs of aging by making Intellishade® part of your daily skincare routine. It's a three-in-one sunscreen, moisturizer and sheer tint that conceals, corrects and protects.

1. **Conceals**
   o Intellishade® smart tint technology matches every skin tone, every time
   o The mineral tint gives your face a healthy glow and helps to even out skin tone
2. **Corrects**
   o ACS-456 works to reduce the appearance of fine lines and wrinkles and strengthen the skin's own natural defenses
   o Clinical levels of the powerful peptide Palmitoyl Tripeptide-5 helps improve skin elasticity and firmness and activates the skin's own growth factors for increased collagen production
   o Matte formula helps to minimize the appearance of pores
3. **Protects**
   o An SPF 45 with UVA and UVB broad spectrum coverage is combined with an IPF (immune protection factor) for complete sun defense
   o A micronized zinc oxide delivers maximum protection while maintaining a lightweight feel
   o Formulated with a unique blend of antioxidants for added sun protection
