

Rétrinal+ 0.05/0.1 Cream

Indication

- Fine lines and wrinkles
- Uneven skin tone
- Lack of radiance
- Loss of skin firmness
- Photodamage

Best for individuals with normal to sensitive aging skin

Formulated with 2 exclusive ingredients:

1. Retinaldehyde, the immediate precursor to retinoic acid* and one of the most effective forms of vitamin A
2. Patented Pre-Tocopheryl, a photostable form of vitamin E, Rétrinal+ has been clinically proven to help prevent and reduce the visible signs of aging with little to no irritation**.

Rétrinal+ is available in two concentrations to address individual skin-aging concerns: 0.05 and 0.1.

Benefits

- Diminishes the appearance of fine lines and wrinkles with little to no irritation**
- Enhances firmness, hydration and radiance of the skin
- Improves skin texture
- Provides moisture and powerful antioxidant protection against free radicals
- Fragrance-free
- Hypoallergenic and non-comedogenic

Directions for use: Apply AM and/or PM to thoroughly cleansed face and neck. Use a sun protection of SPF 25 or higher while using this product. (Before twice daily use consult skin care professional)
