

Glytone Anti-Aging Day Cream

A day cream with time-released Vitamin E, Red Tea Flavonoids and Glycolic Acid to synergistically deliver powerful antioxidant protection and anti-aging benefits.

Indicated for:

- Premature Aging skin caused by environmental damage
- Oxidative stress
- Aesthetic procedure such as IPL and Microdermabrasion

• 6% Free Glycolic Acid helps to gently exfoliate the surface of the skin, renewing the texture and helping to maximize the penetration of other ingredients

• 1% time-released, photostable Vitamin Flavonoids work together to help neutralize free radicals

• Hyaluronic Acid helps to promote skin hydration

• Fragrance-free
