

# Glytone Anti-Aging Night Cream

A night cream with Peptide Complex that acts in the DEJ protecting the skin against exogenous oxidative stressors and reducing the appearance of fine line and wrinkles.

## Indicated for:

- Premature Aging skin caused by environmental damage
- Oxidative stress
- Aesthetic procedure such as IPL and Microdermabrasion

Glytone anti-aging night cream revitalizes skin firmness and elasticity deep within the skin's surface to visibly smooth the look of lines and wrinkles. Formulated with a unique blend of Peptides and high concentrations of Vitamin E and Glycolic Acid as well as with Red Tea Flavonoids, it delivers unparalleled antioxidant protection and anti-aging benefits.

- Peptide Complex activates skin natural repair and reduces the appearance of fine line and wrinkles.
- Fragrance-free
- Paraben-free
