

ANTIROUGEURS FORT RELIEF CONCENTRATE

INTENSIVE TREATMENT REDUCES THE APPEARANCE OF REDNESS, IMPROVES MICROCIRCULATION AND RELIEVES IRRITATION.

- ✓ Increases microcirculation
- ✓ Decreases skin reactivity
- ✓ Anti-inflammatory
- ✓ Reduces heat sensations and irritation
- ✓ Improves the appearance of blood vessels
- ✓ Decongesting
- ✓ Easy application for irritated skin due to its soft, velvety texture
- ✓ Needle nose tube for spot application
- ✓ Use in monotherapy or as a compliment to medical treatments

Intensive Treatment for Patients with:

- Intermittent redness
- Persistent redness
- Dilated, enlarged blood vessels
- Bumps and/or pimples

CLINICAL STUDIES SHOWED THAT:

- NEW SAPONIN-ENRICHED RUSCUS EXTRACT (0.3%) ACTS AS A VASOCONSTRICTOR THAT IMPROVES CUTANEOUS MICRO-CIRCULATION WITH ANTI-INFLAMMATORY AND ANTI-ANGIOGENIC PROPERTIES (REDUCES VEGF).
- **HESPERIDIN METHYL CHALCONE** PROTECTS AND STRENGTHENS THE VASCULAR WALL.
- **DEXTRAN SULFATE** PROVIDES DECONGESTING PROPERTIES AND MINIMIZES THE APPEARANCE OF SWELLING.
- RICH IN **AVÈNE THERMAL SPRING WATER** TO SOOTHE, SOFTEN, AND CALM THE SKIN.
- **SHEA BUTTER** NOURISHES.
- USE IN MONOTHERAPY OR AS A COMPLEMENT TO MEDICAL TREATMENT.
- VELVETY SMOOTH TEXTURE SOOTHES THE MOST SENSITIVE SKIN.

Directions for use: Apply to affected areas (cheeks and wings of the nose) as an intensive treatment. Use daily following with Redness Relief Soothing Cream SPF 25 in the daytime. (AM/PM)
