

HYALIS

1% HYALURONATE REFINING SERUM

BENEFITS OF A HIGH CONCENTRATED PHARMACEUTICAL GRADE HYALURONATE	
• High level of purity	• Optimal hydration with low risk of irritation potential
• Low presence of potential inflammatory components	• Can be used on sensitive, stressed or post-procedural skin
• Defined and rather narrow molecular weight distribution	• Offers excellent hydrating benefits
• High batch to batch consistency	• Consistent quality and patient satisfaction

FORMULATED WITH THE HIGHEST CONCENTRATION OF BIO-ENGINEERED, PHARMACEUTICAL GRADE 1% SODIUM HYALURONATE (HYALURONIC ACID) FOR MAXIMUM PURITY AND EFFICACY. HYALURONIC ACID HAS WATER RETAINING PROPERTIES AND CREATES A SPONGE LIKE EFFECT, **ABSORBING UP TO 1,000 TIMES ITS WEIGHT FOR OPTIMAL SKIN HYDRATION!**

ANTI-AGING

- Fast acting hydrating serum delivers immediate moisture to relieve scaly and dry skin.
- Smooths and plumps skin with the highest concentration of pure, pharmaceutical grade Hyaluronate for maximum tolerability and efficacy.
- Minimizes the signs of skin aging and helps restore radiance.

POST-PROCEDURE

- Helps soothe stressed, irritated skin post-procedure and helps improve the recovery process.

ADJUNCTIVE CARE

- Can be used as adjunctive care to dermatological treatments that dry the skin, such as rosacea, anti-acne and retinoid regimens.

The dynamic combination of both HYALIS and Bio-Cream may also promote skin recovery and restoration as well as help minimize the signs of downtime associated with laser treatments.
