

High Protection Tinted Compact SPF50

Indication

- Intolerant, sensitive skin
- Redness-prone skin
- Post-procedure skin
- Skin sensitive to chemical sunscreens
- For normal/sensitive skin

Compact makeup protects skin while simultaneously providing light coverage and non-irritating UVA/UVB protection.

Avène “White” suncare offers 100% mineral, chemical filter-free sunscreen products to provide broad spectrum UVA and UVB protection without irritation. It is safe for even the most sensitive skin, including infants, babies, and post-procedure skin.

This amazing SPF compact gives immediate protection while lightly covering any imperfections.

Additional Benefits

- Available in 2 shades: **beige** and **honey**.
- 100% mineral sunscreen provides non-irritating protection.
- Enriched with patented Pre-Tocopheryl (a photostable form of vitamin E) for powerful anti-oxidant protection.
- Easy for touch-ups throughout the day.

How to use: Apply generously and evenly 15 minutes before sun exposure. Reapply as needed (every 2 hours) after towel drying, swimming, or perspiring.
