Gentle and Exfoliating Skin Cleansers

Gentle Skin Cleanser: for intolerant or sensitive skin

- Luxuriously creamy cleanser rich in Glycerin helps gently purify without stripping skin's natural barrier.
- Skin soothing formula is ideal for dry-skin, post-procedure cleansing and Rosacea prone skin.

Exfoliating Skin Cleanser: for normal to oily skin

- Retexturizing 10% Glycolic Acid gel cleanser helps reveal fresh, vibrant skin that glows with the hydration of Glycerin.
- Primes skin prior to procedures.

Glycerin rich clarifying cleansers help gently melt away make-up and surface impurities as skin is infused with a healthy dose of moisture.

Glycerin's role in healthy skin:

- Healthy looking, hydrated skin has a sufficient level of water which is dependent on the presence of NMF's (Natural Moisturizing Factors). NMF's enable skin to retain water via their water holding properties.
- Glycerin's role as an NMF has been overlooked until recently, however, recent studies support the role of Glycerin for maintaining hydration of skins outermost layer, the stratum corneum.

Use AM/PM or as directed by your physician to cleanse, hydrate and prime skin.
