

Redness Relief Soothing Cream SPF 25

Light green cream neutralizes and helps minimize the appearance of redness while improving microcirculation and providing broad spectrum UVA/UVB protection.

Perfect for patients with redness-prone skin conditions including:

- ✓ Intermittent redness (Flushes)
- ✓ Persistent redness (Rosacea)
- ✓ Dilated or Enlarged blood vessels
- ✓ Bumps and/or pimples
- ✓ Burning, stinging, flushing skin

Benefits of Redness Relief Soothing Cream SPF 25:

- Helps minimize the appearance of swelling.
- Helps reduce the appearance of redness.
- Improves overall vein and skin health.
- Clinically proven to reduce the amount of recurrences of flushing and blushing.
- Broad spectrum SPF25 protects skin and helps prevent future redness.
- Anti-microbial.
- Reduces harmful, collagen breaking inflammation.

Directions for use: Apply generously after cleansing with Antirougeurs Dermo-Cleansing Fluid 15 minutes before sun exposure and as needed. (AM)
